2011 Federal Employee Viewpoint Survey- Comparison Results Overseas Private Investment Corporation (OPIC)

The enclosed report provides a comparison of the 2011 OPIC Employee Viewpoint Survey results with the OPM issued government-wide 2011 Federal Employee Viewpoint Survey results. The Employee Viewpoint Survey is a tool that measures employees' perceptions of whether, and to what extent, conditions that characterize successful organizations are present in their agencies. The survey:

- Provides general indicators of how well the Federal Government is running its human resource management systems.
- Serves as a tool for OPM to assess individual agencies and their progress on strategic management of human capital.
- Gives senior managers critical information to answer the question: What can I do to make my agency work better?

The Federal Employee Viewpoint Survey was administered to full-time, permanent employees. While OPM administered the survey for most agencies, OPIC chose to self administer the survey so that results could be broken down by department.

Of the 540,727 employees (97% of the executive branch workforce) receiving surveys, 266,276 completed the survey for a Government response rate of 49.3%. At OPIC, of the 182 employees who were eligible by OPM standards to participate in the 2011 survey, 151 employees responded, resulting in a response rate of 83% - significantly higher than the government-wide average.

Overall, OPIC employees responded more positively to more than 83% of the survey questions compared with the general government population. Noteworthy areas where OPIC employees showed a significant (greater than 15%) difference in positive ratings compared with overall government are as follows:

Survey Questions	2011 OPIC
	vs. Overall
	Government
Physical conditions (for example, noise level, temperature, lighting, cleanliness in the	↑20%
workplace) allow employees to perform their jobs well.	
My work unit is able to recruit people with the right skills.	↑25%
